PROFESSIONAL EXPERIENCE

World Data Lab

Associate Data Scientist

Sept 2025 - Now

- Harmonise household budget survey microdata for 20 countries (50+ survey waves), classifying expenditure into consistent consumption categories for global spending estimates.
- Lead quality assurance for World Data Pro's core datasets, flagging inconsistencies before each release.
- Compile national accounts and CPI data from national statistical offices, Eurostat, UN DESA and the World Bank, reconciling survey data with macro aggregates.

Data Science Summer Internship

Jun - Aug 2025

- Built an automated quality-control pipeline in R to streamline data validation, improving the efficiency and accuracy of data checks.
- Contributed to a model estimating the value of global eCommerce markets.

Meriskill

Jan - Feb 2024

Data Science Winter Internship

- Developed a Power BI dashboard to monitor KPIs and analyzed employee turnover using Power BI and Excel to identify patterns and improve retention.

EDUCATION HISTORY

University of Technology Sydney | Study Abroad Scholarship

01/2026 - 07/2026

- International academic exchange combining coursework and thesis development.
